HYDREAUBAR™ CASE STUDIES

GREAT FOSTERS COUNTRY HOUSE HOTEL, SURREY

Richard Young, General Manager at Great Fosters Hotel reports, "Food and beverage are of paramount importance and are reflected in our overall reputation. I was amazed at the difference that the quality of water could bring to many of our services.

Our own brand bottled water is now truly pure and tastes great. Our tea and coffee look clear and more appealing than ever before and with no unsightly residue floating on the surface as so often happens with tap and filtered water. The ice is crystal clear and guests regularly comment on the clarity. The steam ovens also use pure water and I'm told that pure water helps to retain more of the nutritional value of food so our guests can enjoy the great food whilst benefiting from increased nutritional value!

I have no hesitation in recommending PureH2O and would say that pure water is a must for all reputable quality establishments."

LE MANOIR AUX QUAT'SAISONS OXFORDSHIRE

Chef Patron Raymond Blanc's Michelin starred restaurant and hotel, Le Manoir aux Quat'Saisons uses PureH2O systems.

PureH2O is embraced throughout the kitchens and cooking school with food preparation benefiting from fully purified water using our patented RO technology. Hotel guests enjoy the purity and taste of beautifully clear and full flavour infusions, perfect coffee and crystal clear ice. Bathing water is softened and conditioned making an altogether more pleasurable experience, enhancing the condition of hair and skin.

Our PureH2O is just one of the ways in which Le Manoir ensures diners and guests enjoy the best experience possible.

THE AVENUE COOKERY SCHOOL LONDON

Richard Horsford, Chef and Teacher writes; "As a fast-paced cookery school, The Quatreau tap [and pure water] has made a real difference to our day-to-day running of the school. The purity of the water is perfect for allowing the flavours of food to shine, while the Boiling function is great for making teas and coffees for our students without having to boil endless kettles!

From blanching veg to making ice-cold sparkling drinks, our Quatreau is the icing on the cake for our busy cookery school."

HYDREAUBAR™ BOTTLING OPTIONS

PUREH2O 750ML BOTTLE

There are 2 bottle options available, screw cap and swing cap (shown here). Each will hold 750ml of still or sparkling water with the option to have your bottles branded for the business.

Manufactured to a glass thickness that complies with TEC7 regulatory requirements for reusable glass bottles.

SUSTAINABILITY

Join the refill revolution and rid our industry of single-use plastic drinking bottles.

For further information and to see the full range of purifiers, softeners and multifunction taps visit quatreau.com

EXISTING INSTALATIONS

We have clients enjoying our HydreauBar™ sytems, purifiers, Quatreau Touch™ and Quatreau SmartTap™ (dispensing a variety of water types) in all of these buildings, some of which continue to rollout installs across Europe and beyond.

WORLD TRADE CENTRE - New York

One World Trade Center is the main building of the rebuilt World Trade Center complex in Lower Manhattan, New York City. One WTC is the tallest building in the United States, the tallest building in the Western Hemisphere, and the sixth-tallest in the world.

THE SHARD London

The Shard, also infrequently referred to as the Shard of Glass, Shard London Bridge and formerly London Bridge Tower, is a 95-story supertall skyscraper, designed by the Italian architect Renzo Piano, in Southwark, London, that forms part of the Shard Quarter development.

THE SCALPEL London

The Scalpel is a commercial skyscraper in London, United Kingdom. It is located on Lime Street in the City of London financial area.

SALESFORCE TOWER London

110 Bishopsgate (formerly Heron Tower now known as Salesforce Tower) is a commercial skyscraper in London. It stands 230 metres (755 ft) tall including its 28-metre (92 ft) mast making it the tallest building in the City of London financial district.
