

INTRO™

—space saving reverse osmosis drinking water system with no tank needed

INTRO™

—space saving reverse osmosis drinking water system with no tank needed

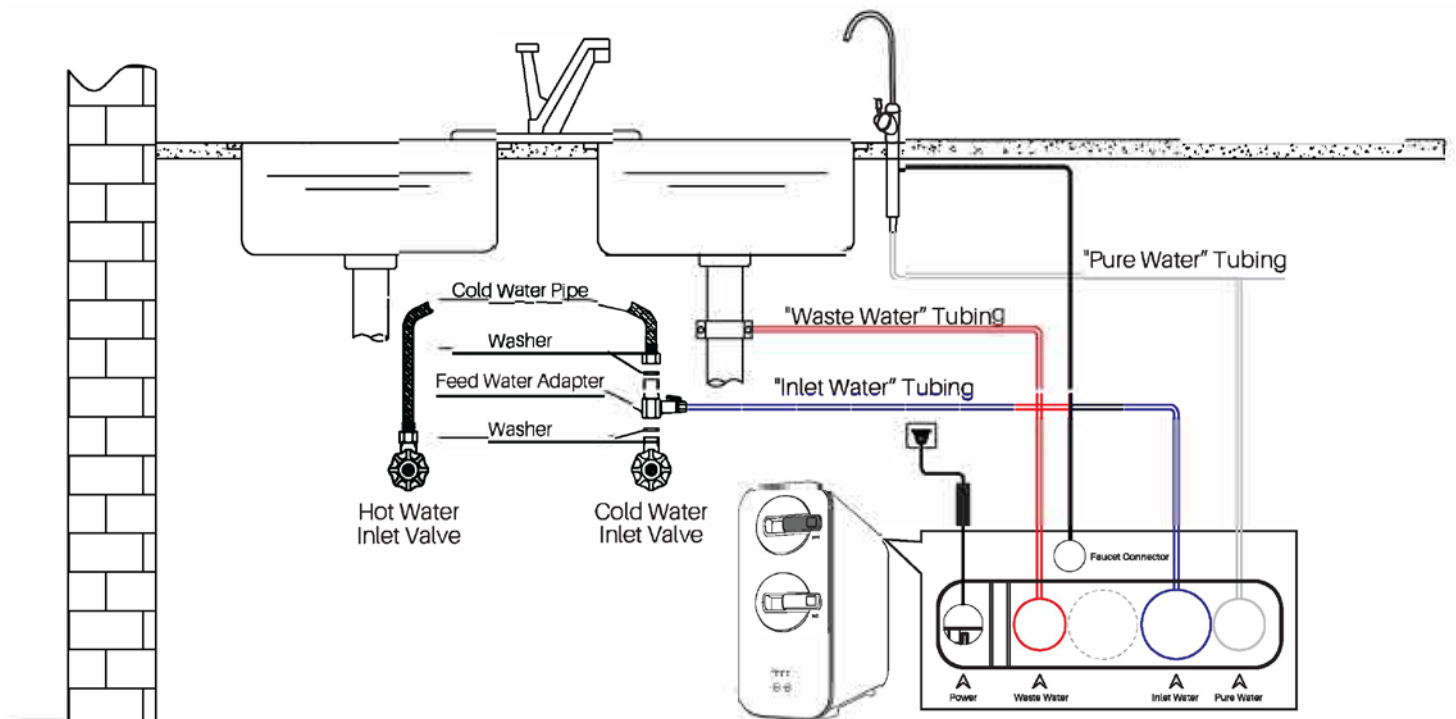

INTRO™ is a clever solution, which saves significant space as it does not need a storage tank.

The system utilises a high flow RO Membrane and Activated Carbon Pre Filtration modules that produce a good flow of purified water directly to a faucet.

FEATURES

- Reverse Osmosis (RO) provides pure water and removes contaminants and impurities (99.99% organics and 98% inorganics).
- Low waste water to pure water ratio (1:1.5), which saves water, reduces bills and protects natural resources.
- 600 gallons per day (faster water flow rate).
- Easy to install.
- Automatic flushing at power-on, smart filter replacement prompt.
- LED display on faucet, including total dissolved solids (TDS).
- Quick filter replacement.
- Integrated waterway.

TYPICAL INSTALLATION

INTRO™

—space saving reverse osmosis drinking water system with no tank needed

3/8" Compression Outlet

1/2" FIP Outlet

Left:
1/2 FIP to 3/8
compression

Right:
3/8 compression to
1/2 FIP

SPECIFICATION

PRODUCTION RATE: 1.5-2l/m approximately.

PURITY LEVELS: Organics 99.99% Inorganics 98%

INSTALLATION KIT: PureH2O Stainless Steel Faucet + in line plumbing kit

SERVICE: Stage 1 GAC and RO modules require changing annually

FEED WATER TEMP: 5-38°C / 41-100°F

FEED WATER PRESSURE: 14.5-58 PSI/0.1-0.4 MPa

MAX WORKING PRESSURE: 100 PSI

DIMENSIONS: System: 450mm x 160mm x 378mm
Faucet: 323mm H

FLOW RATE: 0.417 GPM/600 gallons per day

NET/GROSS WEIGHT: 9.5 kg / 12 kg

SITE PREPARATION DETAILS

- Check the mains cold water dimension. In the UK it's most likely to be 15mm.
- In Europe it's possible to have a 1/2" or 3/8" OD compression inlet valve under the sink. Check the images below and choose the most suitable adapters that work best.
- For 1/2" FIP outlet valve, use the compression hose to 1/2" FIP adapter and adapter 3/8" ready. If 3/8" OD Compression outlet valve, you do NOT need to use the hose adapters.

CUSTOMER TESTIMONIALS

"Until you have tried water purified by PureH2O Ltd, you don't realise how bad other water tastes. I decided to do it because of the health benefits. I am a convert – no other water tastes this clean – even bottled water doesn't come close." – D. Gough

"I can genuinely say that I feel much brighter, vibrant and my energy levels have certainly improved." – Eve Kalinik, nutritional consultant

"This fantastic local company help us as an Eco Venue – all our drinking water is purified by their system here on site, giving us great tasting pure water, which is then served chilled, sparkling or boiling by their Quatreau Touch tap in the Woodhaven kitchen." – Nicky Yates, Woodhaven Space, Surrey

"Our tea and coffee look clear and more appealing than ever before and with no unsightly residue floating on the surface as so often happens with tap and filtered water" – R. Young, General Manager at Great Fosters Hotel, Surrey

"We have been using PureH2O Services for over ten years now. Their customer service is great... part of having a great product is having the support of the company behind it" – J.M.

"PureH2O Services are honest to their values. They set out to improve their customers health; through the quality of water they drink whilst removing the need for bottled water and the plastic waste associated with it. They are true pioneers and leaders in the market." – Carole Caplin

TRY BEFORE YOU BUY

Visit selected Planet Organic stores in London for a taste of PureH2O – you can even take pure water home to try before you buy. Refill free of charge at all Planet Organic stores.

"I've used PureH2O Services since I founded Planet Organic. They provide ethical services and genuinely want to save the planet since they started in 1991. There is no other water I would drink or recommend to friends." Renée Elliot, Founder of Planet Organic
